Greetings,

Thank you for your interest in the **Montessori Teacher Education Diploma Course offered in Winnipeg**. I am pleased to send you this information package regarding this Course proposed in 2012 - 2013 in partnership with Casa Montessori and Orff School in Winnipeg.

Let me share with you the good news: Registered as a Private Vocational Institution under the Private Vocational Institutions Act in Manitoba, the **Canadian Montessori Teacher Education Institute** has been granted full accreditation from MACTE (Montessori Accreditation Council for Teacher Education) for our Early Childhood (2½-6) Diploma Program offered in Winnipeg.

The Montessori Diploma Course (Early Childhood) provides you with a very special opportunity and resources to gain the necessary knowledge, competence, confidence, and practical skills to pursue a career as a “top” authentic Montessori teacher. It consists of a program of 200 contact hours of theoretical and very practical “hands-on” subjects conducted by two trainers as well as 200 hours of supervised teaching practice with children. It will be my pleasure to be your mentor for this **Montessori Diploma Course** “even from far” as Fay Sequeira, Master teacher, owner of Casa Montessori and Orff School will be your main teacher trainer.

The preparation of a Montessori Teacher requires far more than just learning how to prepare the learning environment and how to present the materials to children. This is the technical part. It also requires each adult to become inspired by the Montessori Spirit! I personally received this inspiration from my own Instructor in Italy as Fay received hers in London from a disciple of Montessori as well. We both hope to pass this Spirit to you!

I hope that this formative experience of this Montessori Teacher Education Diploma Course offered by our Institute in Winnipeg will open the doors to the child’s world for you and the Montessori world as well.

Welcome aboard!

The Child

In her vision, wisdom and analytical research, Dr. Maria Montessori saw life as a continuum, each stage evolving from the preceding one and preparing for the next. The Children’s House as Montessori liked to call this environment for development (Casa dei Bambini) lays the foundation of the inquiring mind of the 2½ to 5 child interested in What and Where. This is the age of the inside unheard demand: “*Help me to do it by myself*” or the experimenting hands: “*I can do it*”.

Course Outline

Montessori’s vision is that her approach of education provides “*a help for life*” for the child. Learning to implement this fundamental principle is an essential part of the Montessori Diploma courses. Instructors are committed to explain the theoretical framework for understanding child’s development, and the philosophical, scientific and historical foundations of Montessori approach and its modernity and to model the use of developmentally appropriate materials.

The MACTE accredited Montessori Teacher Education Course addresses the following topics:

- ❖ Philosophical, scientific and historical foundations of Montessori approach to education and its modernity.
